
Board Skills Matrix

JCURVE SOLUTIONS LIMITED (ASX: JCS) (Jcurve), the business transformation technology company, is comprised of directors with a broad range of technical, commercial, financial and other skills, experience and knowledge relevant to overseeing the business of a technology company.

The composition of the Board will be reviewed on an annual basis with reference to the Company's skills matrix, which is used as a tool to assess the appropriate balance of skills, experience, independence and diversity necessary for the Board to discharge its duties and responsibilities effectively.

A summary of the collective skills, experience, independence and diversity of the Board is set out on the next page and is current as at 20 May 2024 and for FY2024.

The Company seeks to achieve or exceed the targets set for each skill through the Board's collective professional experience and expertise across all of the categories identified in its matrix. Where there are gaps in the skills of the Board, these are filled through the employment of suitably experienced senior executives and/or the engagement of professional advisers.

The assessment process involves the following steps:

1. Determination of relevant skills
2. Weighting those skills according to the requirements of the Company and establishing specific rating criteria to determine the performance target for each skill
3. Completing an individual assessment for each Director against each skill
4. Calculating the collective result of the Board against the rating criteria for each skill, with **RED** being below target, **BLUE** being on target and **GREEN** being above target
5. Noting and assessing any additional factors against each skill
6. Calculating the combined result of the Board and any Additional Factors against each skill's rating criteria with **RED** being below target, **BLUE** being on target and **GREEN** being above target
